PREDGOVOR

Ministarstvo šumarstva FNR Jugoslavije u Beogradu pokrenulo je 1948. godine izdavanje časopisa „ŠUMARSTVO“ kao zvaničnu publikaciju za šumsko-privredna, organizaciona i tehnička pitanja. Redakcioni odbor je formiran od stručnih i rukovodećih kadrova Ministarstva. Tehnički poslovi izdavanja i štampanja povereni su Odeljenju za štampu i propagandu, kojim je rukovodio dipl. inž. Jovan Đurđević. On je izabran za glavnog i odgovornog urednika časopisa. Prvi broj časopisa se pojavio kao dvobroj za juli-avgust 1948. godine. Do kraja tekuće godine su objavljeni brojevi 2. i 3. U izdanju istog Ministarstva objavljeno je 1949. godine 6 brojeva, a sledeće, 1950. godine, samo broj 1 kao dvobroj za januar i februar. To je bio i poslednji broj, čiji je glavni i odgovorni urednik bio Jovan Đurđević. U objavljenim člancima su najviše tretirani problemi organizovanja i izvršavanja proizvodnih planova u svim delatnostima šumarstva. Povremeno je obrađivana i tematika iz primarne prerade drveta. Objavljivani su i tumačeni i zakonski propisi značajni za šumarstvo.

Posle reorganizacije i decentralizacije rukovođenja privredom i prenošenja privrednih funkcija na republičke organe, izdavanje časopisa „Šumarstvo“, od broja 2-3, za mart-juni 1950. godine, preuzima Sekcija šumarstva Društva inženjera i tehničara NR Srbije. Za glavnog i odgovornog urednika izabran je Đorđe Jović, dipl. inž. šumarstva, a za sekretara Miodrag Ljujić, dipl. inž. šumarstva. U to vreme je časopis imao tiraž 3000 primeraka po broju, i štampan je u preduzeću „Šumski pojas“ Beograd-Košutnjak.

Odlukom Osnivačke skupštine Šumarskog društva Srbije od 25. februara 1951. godine, časopis „Šumarstvo“ postaje glasilo Društva šumarskih inženjera i tehničara. Za glavnog i odgovornog urednika časopisa je izabran Dr Dušan S. Simeunović. Članovi uređivačkog odbora su bili profesori Šumarskog fakulteta i naučni saradnici Instituta za šumarstvo u Beogradu. U predgovoru prvog broja za januar-februar 1951. godine je istaknuto da časopis treba da povezuje i angažuje šumarske stručnjake u rešavanju svih aktuelnih naučnih i stručnih problema. Takođe je značajna i saradnja sa odgovarajućim društvima i organizacijama u zemlji i inostranstvu. Od 1953 - 1973. godine podnaslov časopisa glasi: „Časopis za šumarstvo i drvenu industriju“, a od 1973. godine se menja u „Časopis za šumarstvo, preradu drveta, pejzažnu arhitekturu i vodoprivredu erozionih područja“.

Glavni i odgovorni urednici časopisa, i mandatni periodi u kojima su obavljali tu dužnost (prva i poslednja izdata sveska) u časopisu „Šumarstvo“, bili su:

Jovan ĐURĐEVIĆ, dipl. inž.	1/1948 - 1/1950,
Đorđe JOVIĆ, dipl. inž.	2-3/1950 - 6/1950,
dr Dušan SIMEUNOVIĆ	1/1951 - 1/1953,
dr Albe URBANOVSKI	2/1953 - 6/1954,
dr Dušan SIMEUNOVIĆ	7-8/1954 - 1-2/1958,
dr Radovan IVKOV	3-4/1958 - 10-12/1962,
dr Dragoljub MIRKOVIĆ	1-2/1963 - 1-2/1966,

Miloš JEVTIĆ, dipl. inž.	3-4/1966 – 7-8/1968,
dr Stevan JOVANOVIĆ	9-10/1968 – 3-4/1974,
dr Milutin JOVANOVIĆ	5-6/1974 – 3/1980,
dr Pribislav MARINKOVIĆ	4/1980 – 5-6/1985,
dr Sreten NIKOLIĆ	1-2/1986 – 4-5/1996,
dr Zoran TOMOVIĆ	6/1996 – 4-6/2002,
dr Ljubivoje STOJANOVIĆ	1-2/2003 i dalje.

U proteklom periodu dužnost tehničkog urednika su obavljali:

Milutin VUJOVIĆ, novinar,
Ljubiša MIHAJLOVIĆ, dipl. inž.,
mr Miljan VELOJIĆ, dipl. inž.,
Stevan ŽIVANOV,
dr Dragica STANKOVIĆ

Značajna je saradnja tehničkih sekretara redakcije časopisa a to su:

Desanka CVETKOVIĆ
Vilma ĐEKIĆ
dr Dragica STANKOVIĆ

Povodom 40-godišnjice Oslobođenja i 35. godina izlazenja časopisa, prvi put je naslovna strana korica časopisa „Šumarstvo“ broj 5-6 iz 1982. godine štampana u koloru. Tema časopisa je bio „Razvoj šumarstva SR Srbije u periodu od 1945-1980. godine“. Posebni članci u ovom dvobroju su posvećeni: razvoju šumarstva SAP Vojvodine; 60. godišnjici Šumarskog fakulteta u Beogradu; radu i razvoju Srednje šumarske škole u Kraljevu; 25. godišnjici Obrazovnog centra „Momčilo Popović – Ozren“ u Beogradu; bibliografiji radova u „Glasniku Šumarskog fakulteta“ u Beogradu i dr. Namera izdavača ovog jubilarnog broja časopisa bila je da se prikaže posleratni razvoj šumarstva i drvne industrije Srbije.

U periodu od 1986 – 1996. godine glavni i odgovorni urednik časopisa bio je dr Sreten Nikolić. Desetogodišnja uređivačka politika redakcije časopisa doprinela je da u časopisu budu zastupljeni i članci iz prerade drveta. U ovom periodu tiraž časopisa bio je 500 do 800 primeraka po broju. Časopis „Šumarstvo“ je dobio visoka priznanja Saveza inženjera i tehničara Srbije i Jugoslavije. Povodom Dana inženjera i tehničara, 14. aprila, 1986. godine, Skupština Saveza inženjera i tehničara Jugoslavije je dodelila povelju časopisu „Šumarstvo“ kao najboljoj publiakciji u toj godini.

Na Skupštini Saveza inženjera i tehničara šumarstva i drvne industrije Srbije, održanoj 1996. godine, izabran je novi redakcioni odbor, a za glavnog i odgovornog urednika postavljen je dr Zoran Tomović. Sledeće, 1997. godine izmenjen je i dizajn naslovne strane korica. Ispod naziva „Šumarstvo“ dat je i naziv na engleskom jeziku, sa fotografijom naslovne strane u boji. Časopis je redovno izlazio i za vreme sankcija.

Oktobra 2003. godine, na Skupštini Udruženja šumarskih inženjera i tehničara Srbije, izabrano je novo predsedništvo i novi redakcioni odbor. Za predsednika Udruženja izabran je Vladan Živadinović, dipl. inž. šumarstva, direktor Šumskog gazdinstva Beograd, i za glavnog i odgovornog urednika postavljen je prof. dr Ljubivoje Stojanović. Odlučeno je da „Šumarstvo“ izlazi četiri puta godišnje.

Bibliografija časopisa „Šumarstvo“ (1948-2007) posvećena 60-godišnjici osnivanja, sadrži potpun opis svakog rada: podatke o autorima, naslov rada na srpskom i engleskom jeziku, volumen, godina, broj stranica na kojima se nalazi članak, i skraćena za jezik na kojem je napisan rezime (Summ. = Summary = engleski; Zsfg. = Zusammenfassung = nemački; Rés. = Résumé = francuski, Rez. = Rezyne = ruski). Na kraju članka je dat i klasifikacioni broj UDK prema Univerzalnoj decimalnoj klasifikaciji (UDK), kojom su obuhvaćene sve naučne i stručne oblasti, i šumarstvo je označeno sa UDK 630. U međuvremenu se prema međunarodnim propisima UDK broj za šumarstvo menjao, (634. 9, 634. 0, Oxf.), ali su sve te ranije oznake svedene na sada zvaničan broj 630. Pošto su u časopisu objavljivani i radovi iz drugih oblasti (drvena industrija, pejzažna arhitektura, erozija, botanika i dr.) i za te oblasti su dati odgovarajući UDK brojevi (674, 712, 627, 581).

Bibliografijom nisu obuhvaćeni razni prilozi (beleške, prikazi knjiga i drugi radovi), kao i beleške o raznim skupovima u zemlji i inostranstvu. Prikazani su samo nekrolozi za šumarske stručnjake, kao i za ličnosti koje su saradivale sa šumarima. Nekrolozi sadrže pored imena i prezimena (godinu rođenja i smrti), godinu i broj časopisa u kojem su objavljeni.

U predmetnom registru se navode radovi po pojedinim oblastima. U sledećem popisu se navode oblasti sa najvećim brojem objavljenih radova.

PREFACE

The Ministry of Forestry of FPR Yugoslavia launched the journal "ŠUMARSTVO" in Belgrade in 1948, as the official publication for forestry - economic, organisational and technical issues. The Editorial Board consisted of the professional and managing personnel of the Ministry. Technical jobs of publication and printing were entrusted to the Department for press and promotion publicity, managed by Jovan Đurđević, B.Sc., who was the Chief Editor. The first number of the journal was a double issue for July-August 1948. Numbers 2 and 3 were published by the end of the year. The same Ministry published 6 numbers in 1949 and only one number in 1950, a double issue for January and February. This was the last number edited by Jovan Đurđević as the Chief Editor. The articles treated mainly the problems of organisation and execution of production plans in all fields of forestry and occasionally the primary processing of wood. Legal regulations significant for forestry were also published and explained.

After the reorganisation and decentralisation of management in the sphere of economy and transfer of economic functions to the Republic organs, the journal "Šumarstvo" was published from numbers 2-3, for March - June 1950, by the Forestry Section of the Society of Engineers and Technicians of PR Serbia. The Chief Editor was Đorđe Jović, B.Sc. (Forestry), and the Secretary was Miodrag Ljujić, B.Sc. (Forestry). At that time, the circulation of the journal was 3000 copies, and it was printed by the Enterprise "Šumski Pojas" Belgrade - Košutnjak.

By the decision of the Constituent Assembly of the Forestry Society of Serbia on 25th of February 1951, journal "Šumarstvo" became the organ of the Society of Forest Engineers and Technicians. The Chief Editor was Dr. Dušan S. Simeunović, the Members of the Editorial Board were the professors of the Faculty of Forestry and the researchers of the Institute of Forestry in Belgrade. The Preface to the first number for January - February 1951 proclaimed that the journal should link and engage forestry professionals in solving all the current scientific and professional problems. The cooperation with the corresponding societies and organisations in the country and abroad was also emphasised as significant. From 1953 to 1973, the subtitle of the journal was: "Journal for forestry and wood industry", and in 1973 it was changed into "Journal for forestry, wood processing, landscape architecture and erosion control".

Chief Editors of the journal "Šumarstvo" and their mandate periods (the first and the last issue) were:

 Ljubiša MIHAJLOVIĆ, B.Sc.
 Miljan VELOJIĆ, B.Sc., M. Sc.
 Stevan ŽIVANOV
 Dr. Dragica STANKOVIĆ

The contribution of the technical secretaries of the editorial staff is significant:

On the occasion of the 40th anniversary of the Liberation and 35th anniversary of the Journal, the cover of the journal "Šumarstvo", number 5-6 in 1982- was in colour for the first time. The theme of the issue was "Development of forestry in SR Serbia in the period 1945-1980". Special articles in this double issue were devoted to the development of forestry in SAP Vojvodina; the 60th anniversary of the Faculty of Forestry in Belgrade; work and development of the Secondary Forestry School Kraljevo; the 25th anniversary of the Educational Centre "Momčilo Popović – Ozren" in Belgrade; Bibliography of the "Bulletin of the Faculty of Forestry" in Belgrade, etc. The intention of the jubilee number of the journal was to present the post-war development of forestry and wood industry in Serbia.

In the period 1986 – 1996, the Chief Editor was Dr. Sreten Nikolić. During their mandate, the Editorial Board affected the editorial policy and included also the articles on wood processing. During this decade, the circulation was 500 to 800 copies. The Journal „Šumarstvo“ was highly acknowledged by the Association of Engineers and Technicians of Serbia and Yugoslavia. On the Day of Engineers and Technicians, 14th April, 1986, the assembly of the Association of Engineers and Technicians of Yugoslavia awarded a charter to the journal "Šumarstvo" for the best publication in the year.

In 1996, the assembly of the Society of Engineers and Technicians of Forestry and Wood Industry of Serbia appointed a new Editorial Board, and the Chief Editor was Dr. Zoran Tomović. In 1997 the design of the title page was changed. The title in English was included below the title "Šumarstvo" the photograph on the cover page was in colour. The Journal was regularly published also during the UN sanctions.

In October 2003, the Assembly of the Society of Forestry Engineers and Technicians of Serbia, elected the new President of the Society - Vladan Živadinović, dipl.B.Sc., Director of the Forest Estate Belgrade, and the new Editorial Board. The Chief Editor was Prof. Dr. Ljubivoje Stojanović. It was decided that "Šumarstvo" was to be published four times a year.

The Bibliography of the journal “Šumarstvo“ (1948 - 2007) is devoted to the 60th anniversary. It contains a full description of all papers: data on authors, title in Serbian and English languages, volume, year, number of pages, and the abbreviations for the Summary languages (Summ. = Summary = English; Zsfg. = Zusammenfassung = German; Rés. = Résumé = French, Rez. = Rezyume = Russian). It is followed by the Universal Decimal Classification (UDC) number, which covers all the scientific and professional disciplines, and forestry belongs to UDC 630. However, UDC number for forestry changed pursuant to international regulations (634. 9, 634. 0, Oxf.), but all the previous signatures are now reduced to the official number 630. As the journal published also the papers from other fields (wood industry, landscape architecture, erosion, botany, etc.), these disciplines also have their corresponding UDC numbers (674, 712, 627, 581).

The Bibliography does not include the notes, book and paper reviews, and the notes on conferences in the country and abroad. It only presents the obituaries of forestry experts and the personalities who collaborated with foresters. The obituaries record, in addition to the names, dates of birth and death, also the volume and the number of the journal when they were announced.

The subject index lists the articles by individual scientific fields. The following is the list of the fields with the greatest number of published papers:
